CUMULATIVE TABLE OF CONTENTS
VOLUME 7, 1986

INNER EAR BIOLOGY AND HEARING
Number 1, February 1986

Anatomy and Pathology of the Inner Ear, *Lynn Carlisle,* 1
Micromechanics of the Cochlea, *Ben M. Clopton,* 15
Transduction and Frequency Tuning in Hair Cells, *Alfred L. Nuttall,* 27
Encoding of Frequency and Level Information in the Auditory Nerve, *Bryan E. Pfingst,* 45
Coding of Complex Sounds in the Auditory System, *Susan E. Shore,* 65
Effects of Experimental Sensorineural Changes on Hearing in Animal Models, *David B. Moody and William C. Stebbins,* 87
Biochemistry of Cochlear Function and Pathology, *Jochen Schacht,* 101
Pharmacology and Neurotransmission of Sensory Transduction in the Inner Ear, *Sanford C. Bledsoe Jr.,* 117

PATTERNS IN PRIVATE PRACTICE: HEARING AID DISPENSING
Number 2, May 1986

The IFs, ANDs, and BUTs of Private Practice Dispensing, *Darrel L. Teter,* 141
Getting Started I: Purchase of an Existing Hearing Air Business, *Betty L. Jensen-Custer,* 153
Getting Started II: Developing an Autonomous Dispensing Practice, *JoAnne Price,* 161
Getting Started III: Strategies for Growth, *Cynthia Ellison,* 169
Marketing Your Dispensing Services, *Dolores Kordek,* 175
The Computer in the Dispensing Office, *R. David Nelson,* 183
Legal Implications of a Professional Dispensing Practice, *Roy Rowland,* 193
Hearing Aid Selection: One Dispenser's Point of View, *Bruce D. Schachterle,* 199
Reflections on the Significance of Private Practice Dispensing, *Christopher Schweitzer,* 205
A Gradual Change in Philosophy Toward Dispensing Hearing Aids, *Darrell E. Rose,* 213
The Ten Commandments of Hearing Aid Dispensing, *James R. Curran,* 219
A Twenty-Five-Year Perspective on Hearing Aid Audiology, *Roy F. Sullivan,* 229

ELECTROCOCHLEOGRAPHY
Number 3, August 1986

Electrocochleography: An Historical Overview, *Charles I. Berlin,* 241
Electrocochleography: Recording Techniques and Clinical Applications, *A.C. Coats,* 247
Electrocochleography in the Diagnosis and Managmenet of Ménière's Disease, *Steven Staller,* 267
A Comparative Study of Primary Electrodes Used in Extratympanic Electrocochleography, *John A. Ferraro, Glynis B. Murphy, and Roger A. Ruth,* 279
Observations on Combined Noninvasive Electrocochleography and Auditory Brainstem Response Recording, *John D. Durrant,* 289
Intraoperative Monitoring of Electrocochleographic and Auditory Brainstem Responses, *Roger A. Ruth, Janice A. Mills, and John A. Jane,* 307
Sequential Electrocochleography and Auditory Dehydration Testing in Patients with Ménière's Disease, *Samuel R. Whitaker,* 329

COCHLEAR IMPLANTS IN CHILDREN
Number 4, November 1986

Selection of Children for Cochlear Implantation, *Jerry L. Northern,* 341
Issues of Pre- and Postimplant Evaluation Regarding Cochlear Implants in Children, *Arthur Boothroyd,* 349
Cochlear Prosthesis Surgery in Children, *Charles A. Mangham and William M. Luxford,* 361
Developmental Aspects Influencing Implantation and Rehabilitation of Children, *Rachel E. Stark,* 371
Psychosocial Issues Surrounding Children Receiving Cochlear Implants, *Marion P. Downs,* 383
Speech Production Considerations in the Management of Children Receiving Cochlear Implants, *Emily A. Tobey,* 407
Auditory Skill Development in Children with Cochlear Implants, *Mary Joe Osberger,* 423
Clinical Objectives and Research-Design Issues for Cochlear Implants in Children, *Richard S. Tyler,* 433
